Immune Killer-T

A natural aid to boost the immune system and T-cell production.

Immune Killer-T is a synergistic blend of immune supporting ingredients. T-cells kill the infected host, activate other immune cells, produce cytokines, & regulate the immune response. Our Immune Killer-T product helps boost product of T-cells. One highlighted ingredient, olive leaf extract contains a high amount of polyphenols that are rich in antioxidants and immune supporting properties. In addition, this extract can help balance cytokines in the body. Cytokines are responsible for regulating the body's immune and inflammatory response. This formula is packed with different types of mushrooms. One type is the Reishi mushroom which is an adaptogen that increases T-Cells, interleukin 2 (IL-2) production, is an antiviral, and is anti-inflammatory. Shiitake, Maitake, and Agarics Blazei mushrooms stimulates T-cell growth which helps support our immune system and keeps it strong to kill off foreign invaders. Astragalus is also included which boosts the immune system, increases T-cells, and can protect against viruses. Ginger is also considered a natural antibiotic and effective against a wide spectrum of bacteria, viruses, fungi, & strep. All ingredients were chosen to help support our immune system.

Health Benefits:

- ✓ Immune Support
- ✓ Immune Boosting
- ✓ T-Cell Production
- ✓ Antiviral
- ✓ Anti-inflammatory
- ✓ Preventative
- ✓ Ultimate ABSORPTION
