

ORGANICCS ABSOLUTELY PURE

Type 1 Collagen

A natural aid to tighten up the body.

Collagen is a protein that is found in our bodies: our skin, tendons, muscles, organs, gut, and bones. Collagen represents about 70% of our total body protein. Type 1 is the top shelf collagen made from the hide of a grass fed organic cow. Our collagen is hydrolyzed which means that the collagen has gone through a process of enzymatic hydrolysis which breaks down the protein into the smallest form of amino acid peptide so your body can absorb it at the cellular level. This is why you have to take collagen orally so that you can help support your body from a cellular level to tighten up the ship. Our blend of ingredients allow for our collagen supplement to help aid in healing of the intestinal wall, improves joint health, improves elasticity and helps reduce cellulite, makes hair thicker, helps wound healing, and is important for growth and maintenance of tendons and ligaments. As we age, collagen production naturally begins to decrease. This is why we need to supplement. Organiccs Absolutely Pure Type 1 Collagen comes in a capsule. Forget about mixing it into a sugary drink. No more clumping and poor taste when taking your collagen supplement. Our formula is specifically comprised for ultimate absorption.

Health Benefits:

- ✓ Improves gut health
- ✓ Improves joint health
- ✓ Improves skin & hair
- ✓ Improves wound healing
- ✓ Improves muscle mass
- ✓ Ultimate ABSORPTION
